## PROJECTS

---

### Django Portfolio Website

Tech Stack: Python, Django, HTML, CSS, Bootstrap

- **Overview:** Developed a Django-based portfolio website to showcase projects, skills, and achievements.
- **Implementation:** Used Django MVT architecture with reusable templates and URL routing.

### Resume/CV Builder using Django and PDF kit

Tech Stack: Python, Django, PDFKit, HTML, CSS, JavaScript

- **Overview:** Developed a Resume/CV Builder web application using Django that accepts user input through dynamic forms and generates a professional, downloadable PDF resume using PDFKit.
- **Security:** Implemented secure form handling, input validation, and server-side processing to prevent malformed data and ensure safe PDF generation.
